METHODOLOGY

RANKING

Rankings A, B and C correspond to law firms specialising in Energy ranked by the **most prestigious legal directories** (Chambers & Partners and Legal 500).

A Band 1 **B** Band 2 **C** Band 3

Rankings A, B and C are based on the average assessment (A, B and C) of qualities/expertise in the different practice areas (Finance, Project finance, Corporate M&A, Administrative and environmental, Litigation, Arbitration, Regulatory antitrust, Tax Energy, Criminal Law, Energy Efficiency, Energy Innovation, Oil & gas, Utilities, Renewables).

More specifically:

A The firm has a well-established presence in the market with a wide range of operations carried out for leading clients in the Energy sector; the team has transversal skills and is active in all Energy sub specializations; wide recognition and “high” reputation according to clients, peers and in general by all market observers contacted by our Research Center, including competitors.

B The firm is present and active in the market; the team has excellences in one or more – but not all – sub specializations; well-established and partially widespread reputation according to its clients and other lawyers’ clients.

C The firm is present and active in the market; the team’s expertise has a primary focus on a specific practice area; recommendations are mostly received by its clients.

The **NEW** symbol indicates that the firm is included in the Report for the first time.

The following signs ▲ = ▼ indicate:

- whether the firm ranking has changed compared to last year, i.e. whether it is moving up, moving down or is stable.
- whether the team has changed compared to last year, i.e. whether it is increasing in size, decreasing or is stable.

A MARKET THAT CONFIRMS THE GROWTH TREND, EVER MORE FOCUSED ON THE DIGITAL EVOLUTION

a cura di alessandra benozzo

TOTAL VALUE

This year, fifty firms active in the energy sector collaborated with Legalcommunity's research center, allowing us to come up with an updated picture of the industry in Italy.

Our sample includes:

In 2018, as with last year, estimated turnover for business related to the energy industry is seeing growth. The estimate the research center has come up with is overall turnover of about 260 million euros, with 30% growth compared to last year's data. In this particular sample, the trend points to growth of 20% as well.

Below is the list of the ten firms with the greatest estimated turnover linked to energy dealings. The collective turnover for these ten firms amounts to 137 million euros, therefore, more than half of the overall turnover in the sector.

TOP TEN FIRMS IN TERMS OF ESTIMATED TURNOVER

IN ALPHABETICAL ORDER

- ★ BonelliErede
- ★ Cleary Gottlieb
- ★ Curtis
- ★ Dla Piper
- ★ Gianni Origoni Grippo cappelli & Partners
- ★ Chiomenti
- ★ Grimaldi Studio Legale
- ★ Hogan Lovells
- ★ Legance
- ★ Paul Hastings

FIRMS WITH THE HIGHEST PERCENTAGE OF ENERGY-DRIVEN TURNOVER

Among the firms whose overall turnover is strongly tied to various activities in the energy sector, the one that stood out the most was L&B Partners, which reports that 90% of its revenue comes from work carried out in the energy industry. This is a boutique firm headed up by partner Michele di Terlizzi, with vertical specialization in renewable energy and an innovative business model that successfully combines financial advisory and legal services. Then there are various firms specialized in the administrative field, such as CDRA, Fidanza Gigliola, Sticchi Damiani and Todarello. In addition, there are three international firms, with turnover of 50% or more in this industry: Ashurst, Watson Farley & Williams, and Curtis, which is especially well known for its work in litigation and international arbitration.

TEAMS

	2017		2018	
Total	850	▲	923	+8,5%
Partner	235	▼	229	

There are 923 legal professionals, including partners, attorneys, associates and trainees, working in this area (full or part time), showing growth of 8.5% as compared to the professionals working in the sector in 2017. However, the number of partners has decreased from 229 this year as compared to 235 in 2017. Data having to do exclusively with the firms in the 2017 study paints a different picture: a decrease in the total number of professionals, as well as the number of partners, down 7% and 19% respectively.

THE LARGEST TEAMS

According to the study are Grimaldi (56), DLA Piper (50), Legance (48) and Gianni Origoni Grippo Cappelli & Partners (41).

The rankings have remained more or less the same as compared to 2017 with Legance moving up the list and bypassing Gianni Origoni Grippo Cappelli & Partners, which still maintains a leading position despite losing 8 employees dedicated to the industry.

	Firm	Team	Partners	%Partners
1	Grimaldi Studio Legale	56	17	30%
2	Dla Piper	50	15	30%
3	Legance	48	7	14.5%
4	Gianni Origoni Grippo Cappelli & Partners	41	10	24.3%
	Hogan Lovells	35	6	17%
5	PwC TLS	35	4	11.4%

Looking at all of the 50 firms that took part in the survey, the average ratio of partners to the team is just over 25%. At the opposite ends of this range, there's PwC's 11.4% and LCA's 44.4%.

TEAMS THAT HAVE GROWN THE MOST

Firm	Team 2018	Team 2017	Difference 	Who joined the team
Rödl & Partners	25	16	+9	9 associates
Linklaters	18	13	+5	1 partner (Roberto Casati), 2 associates and 2 trainees

Lipani Catricalà & Partners	12	8	+4	1 partner (Roberto Nigro), 3 associates
Paul Hastings	15	12	+3	3 associates
McDermott Will & Emery	13	10	+3	3 associates, 1 counsel
Gebbia Bortolotto	16	13	+3	3 counsels

THE TEAMS THAT HAVE SEEN THE GREATEST DECREASE:

Firm	Team 2018	Team 2017	Difference 
Chiomenti	16	36	-20
Hogan Lovells	35	44	-11
Gianni Origoni Grippo Cappelli & Partners	41	49	-8
Macchi di Cellere Gangemi	32	25	-7
Watson Farley & Williams	18	24	-6

NEW HIRES IN 2018

There were a total of 67 new hires in energy teams at the various firms. In most cases, these hires included associates but there were also new partners brought in along with those in more senior roles. This trend seems destined to continue through 2019 as evidenced by Cristina Martorana's recent move from Orrick to Legance.

In detail:

Name	Joined the firm	From
Pierpaolo Mastromarini <i>Partner</i>	Bird & Bird	Watson Farley & Williams
Giovanni Diotallevi <i>Partner</i>	Dentons	Chiomenti
Roberto Nigro <i>Partner</i>	Lipani Catricalà	Eunomia
Sergio Fienga <i>Partner</i>	Pedersoli Studio Legale	Caiazzo Donnini Pappalardo
Enrico Maria Mancuso <i>Partner</i>	Pedersoli Studio Legale	Baker McKenzie
Mario D'Ovidio <i>Partner</i>	Dla Piper	Watson Farley & Williams
Carmine Oncia <i>Partner</i>	Giliberti Triscornia	Grimaldi Studio Legale
Claudia Brusciaglioni <i>Partner</i>	LMCR	Macchi di Cellere Gangemi
Cristina Ajroldi <i>Of Counsel</i>	Gebbia Bortolotto	-
Alessia Marconi <i>Legal Director</i>	Dla Piper	Watson Farley & Williams
Katia Zulberti <i>Senior Attorney</i>	Chiomenti	NCTM

If we look at internal promotions, Ashurst certainly stands out. In 2018, two attorneys were promoted to partner: Umberto Antonelli who specializes in project finance and Elena Giuffrè who specializes in administrative law.

ORGANIZATIONAL CHANGES

Finally, we'd like to point out the rebranding of the Amministrativisti Europei Associati firm to Fidanzia Gigliola, which took place in 2018, and the creation of an administrative law department as well as a white-collar defense department by Pedersoli. The administrative-law department was created at the end of 2017 and is headed up by lawyer Sergio Fienga while professor Enrico Maria Mancuso leads the white-collar defense team created in January 2018.

FIRMS/ LAWYERS MENTIONED MOST FREQUENTLY BY THOSE IN THE MARKET

Professionals in the market clearly categorize the firms in two major ways: those that can handle energy deals from A to Z, guaranteeing the highest levels of service in all areas, and those firms that have one or more areas of specific expertise.

In the first group, the firms that were mentioned most often included, in first place, Gianni Origoni Grippo Cappelli & Partners, followed by Legance and DLA, tied for second place, and with Ashurst taking the third spot.

MARKET TRENDS

The challenges of energy transition. Key words: technological evolution and the digitalization of energy.*

Europe is aiming for the objective of having 32% of its energy production come from renewable sources by 2030.

This is motivating Italy to revise the more conservative objectives laid out by the Strategia Energetica Nazionale (SEN) in 2017, aiming higher than the 28% target made at that time for renewable energy.

These are aggressive objectives that will lead to a great deal of investment, but Italy does not seem unprepared to take on the challenges and all of the movement taking place in this industry as our country fully takes part in this energy transition. The main driver behind this evolution is technology. For a long time, the digital revolution had a very gradual, marginal impact on the energy sector. Today, technology, innovation and digitalization are the main drivers of the energy transition and are changing the confines in the sector in a major way, introducing new paradigms when it comes to production, transportation, storage and consumption.

Market data shows a great deal of growth in investments in various areas of renewable energy, starting with solar and wind energy along with smart-energy projects, with a specific focus on e-mobility projects. The importance of this sector can be seen by the fact that the electric industry has unequivocally chosen renewable as the fundamental element in the future of energy.

Along with trend that sees the renewable sector being further strengthened, it is ever more evident

that, consequently, innovative business solutions are being developed for the increase in storage, intelligent networks, microgrids, the Internet of Things and digitalization, and this means that new key players are entering the market. These are companies that don't come from the energy sector and are 100% technological.

While deals that rely on the use of innovative technologies and efficiency and flexibility solutions are still limited, it is in this exact area where the most interesting innovations are taking place. By looking to the storage market, for example—which is still in its infancy stages in many ways—at the end of November 2018, an important and innovative agreement between Edison and Knutsen OAS Shipping was announced for chartering a ship to transport LNG, starting in 2021, supplying the first small-scale LNG deposit in the Italian peninsula. The agreement is part of the Small-Scale LNG project whereby Edison aims to introduce liquefied natural gas as an alternative fuel for sustainable mobility in naval and truck transportation. Another very hot area that is seeing a lot of investment, and not just in Italy, is e-mobility. According to data from Bloomberg New Energy Finance, this was the big driver in 2018 in developing the green economy worldwide. This is the area where we are seeing a real battle for dominance, with Asian countries currently coming out on top, specifically China, which has listed electric mobility as one of its 10 key sectors of the economy, promoting a great deal of cash flow and support from companies in the industry. This rapid transformation and unstoppable technological development means that there is ever greater urgency in developing and updating the regulatory framework in order to facilitate and harmonize the advances taking place. Many of those interviewed point out that legal and tax-law firms need to better prepare themselves to understand this business in-depth in order to guide their clients toward possible future scenarios in the industry.

THE MOST IMPORTANT DEALS OF THE YEAR

In 2018, various deals took place that were significant for their size or the professionals and firms involved. “Deal of the year for 2018” is most certainly **F2i’s acquisition of Italian solar assets** held by RTR Rete Rinnovabile S.r.l **from the international Terra Firma fund**. Negotiations for the divestiture of Rtr began at the end of 2017. The agreement, which was signed in July, was completed in October of 2018.

This was the most important divestiture of solar-energy assets ever to take place in Italy, with 334 MW distributed across 134 production sites, for an enterprise value of 1.3 billion euros.

This deal makes F2i the third main producer in this industry in Europe with over 800 MW of installed capacity.

Participating firms:

- **Legance** helped F2i and its subsidiary F2i Energie Rinnovabili 3 with a team led by Senior Partner **Monica Colombera** for the M&A aspects for the structuring and execution of financing for the deal, as well as in terms of refinancing all existing debt.
- **Gianni Origoni Grippo Cappelli & partners** worked with Terra Firma with a team led by **Francesco Puntillo** that included partner **Francesco Bruno**, counsel **Maria Panetta** and counsel **Angelo Crisafulli**.
- **Ashurst** assisted the financing banks. The Ashurst team led by partner **Carloandrea Meacci** included partner **Umberto Antonelli** and counsel **Fabio Balza** for the fiscal aspects.

OTHER IMPORTANT DEALS:

Divestiture of Total Erg to API

The divestiture of 100% TotalErg's shares, held by ERG and Total Marketing Services, to the Api Group. With this deal, API establishes itself as a leader in the industry with the ability to refine more than 6 million tons per year, and a network made up of more than 5,000 retailers. ERG has taken leave of the oil industry definitively in order to focus on renewable energy.

Advisors:

- **DLA Piper** with ERG and Total Marketing Services
- **BonelliErede** with Gruppo Api
- **CMS** with Total Marketing Services in the due-diligence and negotiation phases in terms of contract guarantees and the splitting of TotalErg in the oil industry
- **Ashurst** for notifying AGCM of the divestiture of Total Italia to Total MS
- **Legance** with the financial institutions.

The divestiture of Gas Natural to Edison

Edison acquired Gas Natural Vendita Italia from Gas Natural Fenosa. This transaction allowed Edison to strengthen its position on the domestic market, increasing its customer base by 50% and extending its presence on the national market.

Advisors:

- **Gianni Origoni Grippo Cappelli & Partners** with Gas Natural Fenosa
- **Paul Hastings** with Edison

Aggregation among multi-utility companies in the Lombardy region

This has to do with the corporate and industrial partnership among multi-utility companies Acsm-Agam, Aspem, Aevv, Lario Reti Holding and A2A. This was an important part of the consolidation process for the utilities sector in Italy.

Advisors:

- **PwC TLS** helped the parties jointly as a strategic and financial advisor for the aggregation project.
- **Gianni Origoni Grippo Cappelli & Partners** with A2A
- **BonelliErede** with the aggregate Acsm-Agam
- **Gatti Pavesi Bianchi** with the Comitato Parti Correlate from Acsm-Agam

On the infrastructure front, the following deserves a mention:

Open Fiber broadband project

Financing of 3.5 billion to support the Open Fiber growth plan for the development of the first Italian ultra-broadband network in fiber optics. This is the largest structured-finance deal in the EMEA area for the development of a fiber-optic network.

Advisor:

- **White & Case** with Open Fiber
- **Lombardi Segni e Associati** with CDP Equity
- **Gianni Origoni Grippo Cappelli & Partners** with the banks
- **Ashurst** with Banca Europea degli Investimenti
- **Ludovici Piccone & Partners** took care of the structuring of the deal and followed the fiscal aspects of it.

The energy sector is changing fast, from funding and legislation through technology and supply chain and choosing the right sector specialist is the first step to take.

We can connect you with the best legal expertise which includes: Oil and Gas, Wind, Solar PV/Solar thermal, Bioenergy, Energy from Waste (EfW), Waste disposal and recycling, District Energy, Anaerobic Digestion (AD), Energy Storage and Hydropower.

We focus on developing long-term relationships with clients and gaining a thorough understanding of their needs, goals and operating environments. This ensures our support is pro-active, reducing our clients' exposure to both legal and commercial risk.

Our in-depth knowledge and experience of the energy and industrials sectors allow us to deliver quality legal advice in a commercial context. This means that we are fully aware of the key issues, legislative changes, and policy updates which affect the sector so, whatever your requirements, we will be able to assist you.

LC Publishing Group

www.lcpublishinggroup.it

MAG is the first fortnightly online magazine dedicated to the Italian business community. In every issue, the most prominent lawyers, bankers, entrepreneurs and chefs reveal and comment on news and market trends. Inside you'll find:

- Interviews to Managing Directors, Lawyers, Bankers, Advisors, tax Experts and Chef;
- Sector Studies;
- Report and post-research interviews, awards and Events.

The first website of the group, launched in October 2011, Legalcommunity.it is aimed at business lawyers, tax consultants and accountants. Every day the website reports current and in-depth news from major companies and from the business lawyers' point of view.

Launched in May 2014, the site is aimed at bankers, private equity funds, real estate operators and asset management companies. For its contents, the magazine focuses on finance market, i.e., on transfers and new appointments, operations and related advisors, rather than on insights and analytical data on market trends. Financecommunity.it has achieved a spectacular growth in terms of number of readers and professionals taking part, giving their contribution.

Launched in May 2015, the digital title is aimed at business managers, HR managers, marketing managers, financial managers and top management. At content level, it focuses on lawyers who work in-house at companies and on the evolution of this group of professions in Italy.

Foodcommunity.it is the Group's website dedicated to the food & beverage sector, created in 2016. The portal aims to analyze the economic scenario, through the protagonists of the food and wine world in Italy and abroad. Great attention is devoted to Michelin starred chefs, to the opening of new restaurants, as well as to the moves of food companies, from multinationals to small producers. The world of food recounted with an economic approach, with the focus on the most important figures in the industry (Chef, high-end restaurants, small artisanal producers).

FOODCOMMUNITYNEWS

Foodcommunitynews.com, launched in 2017, is the international portal dedicated to the development of the Italian food & beverage sector beyond Italy. Written in English, it provides news and insights on the internationalization of the realities and protagonists of the Made in Italy eno-gastronomic world.

INHOUSECOMMUNITYUS

The latest site (April 2018), InhousecommunityUS.com is the international magazine, in English, that covers legal and inhouse affairs in the United States, through experiences beyond Italy's borders to reach overseas destinations and all over the world.

Iberian Lawyer

LC Publishing Group, with its majority stake in Iberian Legal Group, also owns Iberian Lawyer, the printed and digital magazine and in-depth source of information for lawyers who advise international business interests in Spain and Portugal as well as the increasingly global interests of Iberian businesses in Latin America and Africa. Regular Iberian Lawyer networking events enable readers to meet and debate the strategic legal issues affecting their business interests.

The Latin American Lawyer

LC Publishing Group, with its majority stake in Iberian Legal Group, owns The Latin American Lawyer, the printed and digital magazine proposing in-depth articles, reports and interviews which represents a bridge of communication for leading law firms and multinational clients in Latin America, Europe, the US and Africa. It is set to broadcast, communicate and educate through the provision of relevant market intelligence and content to international investors.

unbuonavvocato.it

Unbuonavvocato.it, the first marketplace for the match between demand and supply for legal services to the consumer, with clear prices. Created in 2017, it aims at those who need to deal with a lawyer, even if it's merely to ask for an opinion by telephone. It is the website that allows you to quickly find the best closer lawyer, available at that time, at the best price; contacting him in real time or buying his advice at a pre-established price.
